To whom it may concern:

I have had the sincere pleasure of working with Botek Thurlow civil engineers since the inception of their business. Both owners, Stephen and Clinton, have consistently provided exemplary service and quality engineering design. They each demonstrate a strong knowledge of both, commercial sector and public sector development.

Botek Thurlow has recently teamed with us on the Boca Raton High School Pool project and several other public work projects in Broward County. They have exceeded our expectations and that of our clients with the services they have provided. I highly recommend the firm of Botek Thurlow to anyone who requires high quality civil engineering services.

If you have any questions or wish to speak to me personally on this matter please feel free to call me at anytime.

Cordially yours,

For the firm
John Paul Barranco
